Commonwealth Coordinated Care Plus (CCC Plus)

Overview

The Commonwealth Coordinated Care Plus (CCC Plus) program is a mandatory managed care program that operates statewide and provides services to members with complex care needs. CCC Plus populations include members who are aged, blind, or disabled, including members who are dually eligible for Medicare and Medicaid and members who receive long-term services and supports (LTSS) through a home and community based care waiver or nursing facility.

For the purpose of assuring network adequacy at CCC Plus program go live and during the CCC Plus program implementation, the CCC Plus managed care organization (MCO) Contractors must submit their provider network to the Department electronically in a MS-Excel spreadsheet as part of the readiness review and ongoing CCC Program reporting requirements. The Contractor shall submit those providers with whom it has a signed contract. A complete list shall include all providers that are contracted directly with the Contractor and providers that are contracted through a subcontractor of the Contractor for the purpose of rendering services to CCC Plus members. Hereafter referred to as “Contractors network”.

Network Submission Requirements Manual (NSRM)

The CCC Plus Network Submission Requirements Manual (NSRM) identifies DMAS’ data submission requirements for network submission by contracted MCOs.

Network Submission General Information

1. Submission Format

The Contractor’s network submission must be submitted electronically in a MS Excel format.

2. Submission Frequency

Network Files will be submitted monthly starting from March 2017. Files are due by the 20th of each month unless otherwise directed by DMAS. Post Network Files to SharePoint in the “Networks Adequacy” folder. Full CCC Plus line of business network submission is required for all monthly submissions. Final readiness network that will be used to determine network adequacy for each regions is the file submitted three months ahead of the go live date for a specific region. For example, May network file will be used to determine Tidewater region final network readiness and June network file will be used to determine Central regional final network readiness, etc.

For the May 2017 submission, submit the entire CCC Plus Network. The entire network will be reviewed for Statewide adequacy; however, network determination will be phased in.

3. Comprehensive Services Assessment

DMAS uses data from the Contractor’s network submission to assess whether the Contractor has signed contracts with an appropriate range of primary care practitioners, clinical specialists, nursing facilities, and service facilities (hospitals, labs, behavioral health care providers, adult day care centers, waiver services providers, home health care providers, physicians, etc.) within the Contractor’s service area. Only providers within the State of Virginia and its neighboring States (West Virginia, Tennessee, Kentucky, North Carolina, Maryland, and the District of Columbia (Washington, D.C.)) should be included on the network file. Exceptions: Providers in Designations 06 (LTSS), 17 (DME), 20 (Labs) and 21

(Pharmacy) may be included even if outside of Virginia and the neighboring States. Evaluations are completed on Contractors serving CCC Plus members.

4. Network Analysis

The Contractor's network submission is analyzed and evaluated by DMAS to determine network adequacy.

NSRM Data File Layout Specifications

The Contractor shall strictly follow all layout specifications from naming conventions for the file name and column header names, to actual data and value set within each data element. In addition, the Contractor shall ensure:

- The file name should be composed of the Contractor's abbreviated name + month and year of the submission + NS+xlsx. For example, February 2017 submission from United should be named as: UHC022017NS.xlsx. NOTE: ".xlsx" extension is included in the example to ensure that only Excel files are submitted. PDF, Word, Text or any other file type will not be accepted.
Acceptable Contractor abbreviations are:
 - AET – Aetna
 - ANT – Anthem
 - MCC – Magellan
 - OPT – Optima
 - UHC – United
 - VAP – Virginia Premier
- Format the Excel spreadsheet using the EXACT Data Element Names as column headings. Follow the Data Specifications provided as mentioned in the detailed section of each Field Name. Do not abbreviate and do not add any other characters. NOTE: Files will fail if the column headings are not labeled correctly.
- The entire network shall be in one file, formatted as shown below.
- Do NOT submit separate files or separate worksheets within one file.
- If a provider has more than one physical office location, each location should be submitted; however, list each provider location separately.
- If a provider has more than one provider designation, each designation should be submitted; however, list each designation separately. (See example on page 13).
- If a provider has more than one taxonomy in one location, each taxonomy should be submitted; however, list each provider taxonomy separately.
- Please ensure the primary taxonomy is labeled properly. If a provider only has one taxonomy, this record should be labeled as the primary taxonomy.
- List each separate location on a separate row in the spreadsheet.
- Fields labeled as a "Required Field" must be included for every record in the file.

5. Critical and Key Provider Designations

Critical Provider Designations – used by DMAS management to make Go/No Go decisions and includes:

- 01 – Primary Care Provider (PCP)
- 02 - Pediatrician
- 25 - OB/GYN
- 07 - Outpatient Mental Health
- 21 - Pharmacy
- 11 – General Hospital

Key Provider Designations – Health Plan will need to submit exception requests, if network adequacy standards are not going to be met:

The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The Federal Government mandated the use of only NPI for electronic healthcare transactions. The NPI number is issued under the direction of the Centers for Medicare & Medicaid Services (CMS). All providers must report the NPI of all their participating providers for the quarterly or annual Provider Network Data submission. For additional information on NPI, visit www.cms.hhs.gov/NationalProvIdentStand/. NPI is required; API nor a default value will be accepted. If the provider does not have an NPI, leave this field blank while an NPI is being obtained. Please be advised, that providers without an NPI will not be included in the analysis.

The current network analysis will not validate the NPI number(s) submitted. However, at some point in the future, DMAS will use the National Plan and Provider Enumeration System (NPPES) to validate that the NPI number submitted is on the national database and is still effective.

Edit Applications:

4. No provider is exempt from the NPI requirement for CCC Plus. This includes transportation providers. The recommended process for providers to obtain and NPI is as follows: See paragraph D of the NPI application (<https://www.cms.gov/Medicare/CMS-Forms/CMS-Forms/downloads/CMS10114.pdf>); follow the link in paragraph D to the "Health Care Provider Taxonomy" (<http://www.wpc-edi.com/reference/codelists/healthcare/health-care-provider-taxonomy-code-set/>); find the category that fits the service provided in order for NPPES to issue the NPI. Examples: Non-emergency Medical Transport (VAN) - **343900000X**, Private Vehicle - **347C00000X**, Secured Medical Transport (VAN) - **343800000X**, Taxi - **344600000X**, Transportation Broker - **347E00000X**.
